Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

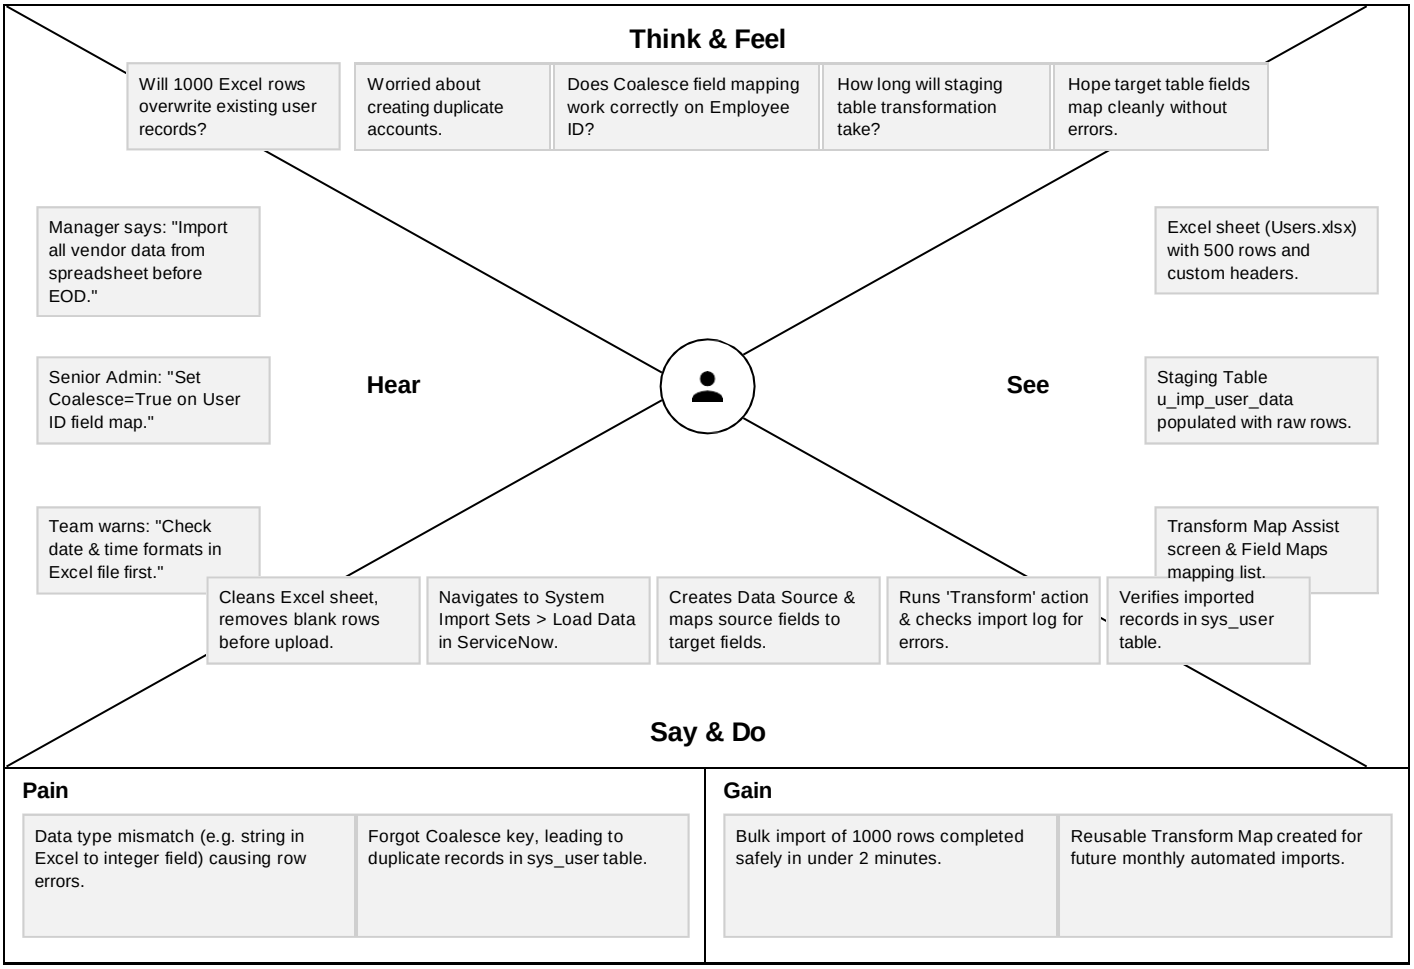

It is a useful tool to helps teams better understand their users. Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Reference: https://www.mural.co/templates/empathy-map-canvas

Example: Import Data using Transform Maps (Spreadsheet)

Pain	Gain
Data type mismatch (e.g. string in Excel to integer field) causing row errors. Forgot Coalesce key, leading to duplicate records in sys_user table.	Bulk import of 1000 rows completed safely in under 2 minutes. Reusable Transform Map created for future monthly automated imports.
